**FEATURES / USER BENEFITS**

- **Extra-Strong Cleaning**
  Formulated for the absolute toughest of cleaning jobs

- **High Dilution Ratio**
  Up to 50:1 means more economical cost-in-use

- **Biodegradable**
  Peace of mind that it’s safe to use

- **Versatile**
  Works with hard or soft water; with alcohol so it cleans kitchen vents as well as degreases engines

- **Fast Acting**
  Formulated to cut grease and suspend oils quickly

- **Deep Cleaning**
  Non-butyl-based blend delivers deep cleaning action

- **Corrosion Inhibitors**
  Helps prevent flash rusting

**APPLICATIONS:**

- **Vent Hoods**
- **Commercial Kitchens**
- **Floors, Walls**

Other applications: Commercial showers/restrooms, powder coat and paint stripping, carbon removal, engine cleaning, soak and dip tanks, oil field equipment, stainless or unpainted steel.

A super-duty degreaser and detergent for extra tough cleaning jobs such as found in commercial kitchens. Is especially effective in cleaning vent hoods in restaurants as well as showers and other commercial bathroom facilities. Helps prevent flash rusting with LANDA’s exclusive, advanced corrosion inhibitors.
**BlockBuster™ Hood and Vent Cleaner**

Engineered Specifically for Pressure Washers with LANDA’s Exclusive Multi-Metal Corrosion Inhibitor Formula

**SPECIAL FEATURES:**
BlockBuster is a concentrated, super-strength hood and vent cleaner formulated for the toughest of cleaning jobs. It effectively removes dirt, grime and grease from vent hoods, kitchen floors and even automotive engines.

BlockBuster is biodegradable and is non-butyl-based for added degreasing effectiveness, but is phosphate free.

DO NOT use on aluminum, magnesium, galvanized or painted surfaces.

BlockBuster is engineered specifically to be metered through a hot- or cold-water pressure washer. The high dilution ratio makes the cost-in-use very economical.

Because it contains LANDA’s exclusive, multi-metal corrosion inhibitor formula, BlockBuster helps prevent flash rusting while cleaning.

BlockBuster is ideal for cleaning extra greasy vents, hoods, floors, walls and ceilings—especially those found in oriental and other restaurants. It is also effective in stripping powder coat and paint and removing carbon. Use on remanufactured engines and oil field equipment. Blockbuster can also be used in soak tank and dip tank part washers.

**DIRECTIONS FOR USE:**
Read Material Safety Data Sheet thoroughly before using this product. For general use, mix with hot water, if possible, at a 50:1 dilution rate. Apply liberally with low pressure or hand pump. Allow to stand 10-15 minutes then pressure wash off. Hot water will improve performance. Adjust dilution depending on severity of cleaning situation.

Apply with a Hot or Cold Water Pressure Washer: Pressure washers use an injector and mix the detergent into the water spray at a rate of about 15:1.

**DANGER:**
Contains Potassium Hydroxide. DO NOT get in eyes, on skin or on clothing. DO NOT breathe vapor. USE ONLY WITH ADEQUATE VENTILATION. When handling wear chemical splash goggles, face shield, rubber gloves and protective clothing. Will cause eye and skin burns. DO NOT take internally. Harmful or fatal if swallowed.

**FIRST AID:**
EYES: Immediately flush with water for 15 minutes. Get medical attention immediately.
SKIN: Wash thoroughly with water. Get medical attention if irritation persists.
INTERNAL: DO NOT induce vomiting. Drink lots of water or milk. Get medical attention immediately.

**KEEP OUT OF REACH OF CHILDREN**
FOR INSTITUTIONAL & INDUSTRIAL USE ONLY
KEEP FROM FREEZING

**INGREDIENTS:**
- Water (CAS#7732-18-5)
- Potassium Hydroxide (CAS#1310-58-3)
- Furfuryl Alcohol (CAS#98-00-0)
- Sodium Metasilicate (CAS#6834-92-0)

**Technical Data**
- Specific Gravity: 1.15
- pH (5% Solution): 12.75
- Boiling Point: > 212°F
- Vapor Pressure: 23mm/hg @ 70°F
- Vapor Density (Air=1): 1.2
- VOC Content: None
- Solubility in Water: Soluble
- Reactivity in Water: None
- Melting Point: 32°F
- Foam Level: 250 ml
- Total Alkalinity: 5.4 ml
- Freeze Thaw Stable: Yes
- Hard Water Stable: Yes
- Insolubles: None
- Shelf Life: 1-Yr Minimum in closed container
