TechnoWax™

Vehicle Wax

APPLICATIONS:

- Cars
- Boats
- Airplanes

*Other applications: Trucks,
Trailers, RVs, Farm Equipment,
Motorcycles, Buses*

FEATURES / USER BENEFITS

■ High Dilution Ratio

Up to 2000:1 means more economical cost-in-use; uses only .6 ounces per automobile at recommended concentration levels

■ Biodegradable

Peace of mind that it's safe to use

■ Versatile

Works with hard or soft water; enhances rinsing in hard or high-mineral water

■ Restorative

Improves the appearance of painted surfaces

■ Safe

Can be used on all painted surfaces

■ Prolongs Life

Special ingredients to extend the life of painted surfaces

A highly concentrated, biodegradable wax engineered to protect and enhance painted surfaces. Designed for use in a pressure washer and safe to use on all hard surfaces, including metals, paints and plastics.

grams of VOC per liter

Technical Data

Specific Gravity95
pH (5% Solution)7 - 9
Boiling Point > 180° F
Vapor Pressure20mm/hg @ 70° F
Vapor Density (Air=1)1.2
VOC Content < 22.5%
Solubility in Water Soluble
Reactivity in Water None
Melting Point20° F
Foam Level250 - 270 ml
Total Alkalinity < .1 ml
Freeze Thaw Stable Yes
Hard Water Stable Yes
Insolubles None
Shelf Life1-Yr Minimum
in closed container

Engineered Specifically for LANDA Pressure Washers

SPECIAL FEATURES:

TechnoWax is a super-concentrated blend formulated to provide long-lasting protection and enhance the appearance of any painted surface.

It is biodegradable. At maximum recommended usage concentration, TechnoWax contains less than .1 grams of VOC per liter.

It is engineered specifically to be metered through a hot- or cold-water pressure washer and is blended specifically to be used with LANDA detergents.

The super high dilution ratio of TechnoWax makes the cost-in-use very economical.

TechnoWax can be used safely on virtually every surface, including aluminum, stainless steel, glass, plastic, paint and fine automotive paint finishes.

It is ideal for use after vehicle washing and in automotive detail shops.

DIRECTIONS FOR USE:

Read Material Safety Data Sheet thoroughly before using this product. For general use, mix with water at a 2000:1 dilution rate.

Apply with a Hot or Cold Water Pressure Washer:

Pressure washers use an injector and mix the detergent with the water spray at a rate of about 15:1. Consult your LANDA dealer for detergent metering specifications. When using a pressure washer, wash from the bottom up (applying detergent) and rinse from the top down.

CAUTION:

May cause eye burns. Avoid prolonged or repeated contact with skin. Harmful if swallowed. Use with adequate ventilation.

FIRST AID:

EYES: Immediately flush with water for 15 minutes. Get medical attention immediately.

SKIN: Wash thoroughly with water. Get medical attention if irritation persists. **INTERNAL:**

DO NOT induce vomiting. Drink water. Get medical attention immediately.
